

River Restoration Seminar

Responding to landholder enquiries about the devastating 2022 flood events.

When: Thursday 7 March 2024

Time: 9am - 3pm

Where: Seminar Room at Mudgee Arts Precinct

Key Topics:

- Why rivers erode
- Erosion control measures for prevention
- Mitigate and restore flood affected banks
- Permits required for working around waterways
- Services provided in our area and costings

Field Trip:

After lunch, we will venture out to a gravity rock wall constructed by Miskle's Earthmoving to discuss when this sort of structure is effective and what goes into the project.
